him to the ground and took his money, \$5,
and his hat. Berndt gave the police de-

TRAIN CAUSES
PANIC IN MIDWAY

Crashes Through Buffer and Iron
Fences Into the Main Passage-
way at Union Station.

Hundreds of lives were endangered yester-
day by the failure of the air brakes to
work on a Cotton Belt train. The train
was backing into the Union Station
shortly after noon and was moving at the
usual rate of speed. As it neared the
buffer the brakeman on the rear plat-
form turned on the air brakes, but they
refused to work.
The train carried four Pullmans. The
rear coach ran into the buffer, and al-
though it is built of heavy timbers, re-
inforced by steel rails, knocked it down.
Then it crashed into the iron fence,
crossed the inner midway and pushed its
way through the second iron fence.
The wooden floor between the fences
gave way, and the wheels crashed down
to the ground, causing the train to
come to a stop with the rear coach
half way into the main midway. The mid-
way was thronged and the noise made
by the train caused a panic among those
standing near.
The only person injured was an invalid
who was on the train. He escaped with a
severe shaking up, which aggravates his
ailment.

NINE THOUSAND MEN
ARE RENDERED IDLE

Three Big Manufacturing Plants
of Chicago Close Down
Indefinitely.

LITTLE EXPLANATION GIVEN.

International Harvester Company
States That Only Significance
Is That the Dull Season
Has Arrived.

Chicago, Sept. 11.—Nine thousand men
have been thrown out of employment by
the closing down of the three big branches
of the International Harvester Company,
the McCormick and Deering divisions in
Chicago and the plant at Plano, Ill.

Following the announcement to-day that
the McCormick plant had closed came the
information that the Deering and Plano
plants had also been shut down last night.
The notices posted in each of the plants
stated that the shutdown would continue
for an indefinite period.

Officials of the company asserted to-
night that the only significance in the
move is that the dull season in the har-
vesting implement business has arrived
and that extensive improvements are to
be made while the big properties are not
in operation.

Trade union leaders, however, assert
that the move was made by the Interna-
tional Harvester Company because its
agreement with the organized trades em-
ployees will expire September 15, the union
men believing that the company does not
wish to enter into another agreement.

STRUBE'S TRIAL
BEGINS TO-DAY.

Youth Who Confessed Killing Alice
Henninger to Face a
Jury.

REPUBLICAN SPECIAL.
Pekin, Ill., Sept. 11.—The trial of Fred
Strube for the murder of Alice Maude
Henninger will be called to-morrow morn-
ing in the Circuit Court of Mason county
at Havana. The crime to which Strube
has confessed is one of the most revolting
in the annals of the criminal record of
Illinois.

Since the commission of the crime Strube
has been confined in the county jail in
Havana, Ill. He talks but little, and ap-
parently cares not what the outcome of
his trial may be. His defense will be
sanity, and experts from various parts of
the country have been engaged to testify.
Strube's father and grandfather are quite
wealthy and hope to save him from the
gallows. Strube is little more than 21 years
of age.

Strube, after his capture, confessed to
the murder of Miss Henninger. He said
that he had asked the girl to marry him,
that she had refused him by the manner
in which she refused him, and that he was
so exasperated that he killed her.

It's in the make, says H. A. Howe,
Tailor, 611 Pine.

POSTAL OFFICIAL A SUICIDE.

Watchman Finds Body of Dead
Letter Office Superintendent.

Washington, Sept. 11.—The dead body of
David P. Lehnardt, the Superintendent of
the dead-letter office of the Post-Office De-
partment, was found to-night by one of
the watchmen, who was making his
rounds just after midnight.

Apparently it was a case of suicide. There
was a bullet-hole in the right temple,
while a pistol lay on the floor beside him.
Death evidently had occurred some hours
before. Mr. Lehnardt was about 50 years
of age.

From all appearances Lehnardt had
made every preparation for taking his
life. Several letters addressed to friends
had been left by him. They included one
to Mrs. Lehnardt, another to Charles H.
Tinsell and another to Major Henry
French.

GUESTS AT SOUTHERN AWOKE
TO FIND STRANGER IN ROOM

Robbed of Money and Let-
ter of Credit.

Albert Gobat of Switzerland, a delegate
to the International Peace Conference, was
robbed of \$50 in money and a letter of
credit yesterday morning at the Southern
Hotel.

Charles Kinsbach, who rooms with Mr.
Gobat, awoke at 6:30 to behold a stranger
in the room. He thought nothing of the
incident at the time, as the man excused
himself by saying that he had mistaken
the room for one in which he was to awak-
en some guests.

Soon afterwards Mr. Gobat discovered
that his money and a letter of credit were
gone, and immediately informed Watch-
man Mehan, who arrested Leopold Pel-
legriani, a valet for Marches di San Gual-
diano, the Italian Peace Commissioner.

Mehean says he saw Pellegriani descend
the stairs leading from the room occu-
pied by Gobat. Kinsbach and Gobat both
identify him as the one who entered their
room.

Pellegriani Smith and Stangler were
called. Pellegriani's room was searched, but
the money was not found. He was then
taken to the Chestnut street police sta-
tion pending investigation.

In San Gualdiano believes him innocent
of the charge. Pellegriani says he was not
in the room.

greeted Judge Parker as he was boarding
a train for Kingston to attend church ser-

Judge Parker's only political caller to-

the National Executive Committee, who
drove over from his summer home at At-

Requests that Judge Parker go on a

personally direct the campaign, continue
to pour in, but as yet the candidate has
not made any change in his programme.

REPUBLICAN SPECIAL.
Washington, Sept. 11.—The United States
Geological Survey has recently perfected
a plan for the systematic collection and
preservation of well records and samples.
The demand for information regarding
wells has become so great that the sur-
vey has decided to issue an annual pub-
lication, containing a brief account of the

This report will be published as near the
beginning of the year as practicable, and
will be sent to all those who apply for it.
